DYNAMIC EDTECH COMPANY URGENTLY SEEKING FULL STACK DEVELOPER BASED IN ANDORRA

Established in 2008, *InThinking* is a successful EdTech company with more than 20,000 users in 100 countries. We are looking for a dynamic full stack developer to join a small team that maintains and develops educational websites which can be found at www.thinkib.net, www.studyib.net, and www.inthinking.net. The successful candidate can be full-time or part time and will be able to work partly from home. They will have the following skills:

Personal & communication
- A good level of written and spoken English
- The ability to work effectively as part of a small team
- Creative, well organised and self-motivated
- Professional, flexible, and trustworthy
- Ability to solve user-end problems in different operating systems
- Good sense of humour

Technology
- LAMP Full Stack Development
- Sufficient GNU/Linux skills to maintain a LAMP server and basic system administration (SSH, permissions, IP tables, Crontab, email server config, etc).
- Front end libraries like Bootstrap, jQuery or AngularJS
- Basic design skills in vector graphic editors (e.g. Illustrator or Inkscape) and bitmap images (Photoshop, Gimp, Krita etc).
- Passionate about web standards, SEO and web apps world.

SALARY: 25,000€ or more depending on qualifications and experience.
